

TFC Strongcover

TFC Strongcover will protect the floor against pollution and damaging.

Strongcover is an extremely strong covering material with a light absorbing top layer, made of polyester fibers. With the non-slip LDPE coating underlayer the Strong Cover is also waterproof.

Specifications:

- weight: 170gsm
- roll width: 100cm
- meters: 50 m²

Application:

Universal protection for the floors indoor.

Characteristics:

- Size:
 - **50m²**: 100cm x 50m
- Waterproof
- Non-slip at the underside
- Shock-absorbing
- Easy to lay down and to remove
- A very low amount of waste
- Wear- and tear-resistant
- REACH certified

Instructions for use:

The surface must be dry, clean and cured. Test the material always before using it.

Pay attention: TFC Strongcover is not resistant against toxic or aggressive substances. For fresh laid floors which still has to breathe or cure (such as concrete, marble, natural stone, wood, parquet, tiles etc.), we strongly advise our TFC self-adhesive breathable liner.
